INAUGURAL TALKS AND LETTERS:

4. M. Kalin, Letter for celebration booklet for 70 years of Japan Society of Tribology, 2026.
3. M. Kalin, Keynote inaugural speaker at the Ceremonial session of the Senate of the University of Ljubljana with guests of honour, December 2025.
2. M. Kalin, Dinner speech at 50th Leeds-Lyon symposium on tribology, Leeds, UK, Spetember, 2025.
1. M. Kalin, Celebration of 100 years of establishemnet of University of Ljubljana and the Faculty of Mechanical Engineering, 2019 (guest of honour: President of the Republic of Slovenia, President of State council, Ministers, President of Eng. Academy, other distinguished guests)

INVITED PLENARY TALKS:

14. M. Kalin, Understanding friction laws of Amontons and Coulomb in view of the real contact area, BaltTrib, 19-21 Nov 2026, Kaunas, Lithiuania.
13. M. Kalin, Relevant aspects of boundary slip in EHL contacts, 2026 World Lubrication Technology Congress, August 18 to 21, 2026 in Qingdao, China.
12. M. Kalin, Friction laws of Amontons and Coulomb: re-evaluated through the view of the real contact area, 3rd International Conf. Advanced Mechanics: Structure, Materials, Tribology, Samarkand, Uzbekistan, Sept. 22-26, 2025.
11. M. Kalin, Real contact area and its role in contact load-carrying capacity, TU Wien-Nanjing University Tribology Symposium, December 2-3, Vienna, Austria.
10. M. Kalin, Real contact area and its relevance for contacts' high load carrying capacity, Balkantrib, Sofia, Bulgaria, September 2024.
9. M. Kalin, Interpreting friction behaviour through real contact area analyses, Kinternational Tribology Symposium, ITS-IFToMM,Salerno, Italy, 6-8 May 2024.
8. M. Kalin, Green tribology for sustainable engineering and mobility, 4th international Brazilian Conference on Tribology, Vittoria, Brasil, 26-29 November, 2023.
7. M. Kalin, Contact mechanics of multi-asperity contacts and their real contact area, ECOTRIB 2023, Bari, Italy, June 21-23, 2023.
6. KALIN, Mitjan. Surface energy and wetting; a strategy for new advancement in tribology; IBERTRIVA 2019, X Iberian Conference on Tribology - IBERTRIB and XI Iberian Vacuum Conference - RIVA, June 26-28, Seville, Spain.
5. KALIN, Mitjan, POLAJNAR, Marko. Employing wetting and surface energy to tailor the performance of tribological systems. 19th International Colloquium Tribology: Industrial and Automotive Lubrication, 21 - 23 January 2014 in Stuttgart, Ostfildern, Germany.
4. BASU, Bikramjit, KALIN, Mitjan. Engineering ceramics and their composites - tailoring material variables for tribological application: WOM 2013, 19th International Conference on Wear of materials, Portland, Oregon, USA, 14-18 April 2013.
3. KALIN, Mitjan. Designing tribological interface for efficient and green DLC lubrication: the role of coatings and lubricants; Lubricant additive technology for green innovation, Japanese Society of Tribologists. October 2011, Hiroshima, Japan.
2. KALIN, Mitjan. How DLC coatings change conventional concepts of lubrication: from boundary to full film regime: 37th Leeds-Lyon Symposium on Tribology, Leeds, 7th-10th September 2010. Leeds: Trinity University College, UK.
1. VIŽINTIN, Jože, KALIN, Mitjan, ROMAN, E. Additive reaction mechanisms on coating surface. First European Conference on Lubrication Management and Technology, LUBMAT 2006, Preston, UK, June 14-16, 2006.

INVITED KEYNOTE TALKS:

15. M. Kalin, Asperty contacts, junction growth and real contact area, China–Italy International Joint Laboratory on Smart Tribology (CISTL), 1st China–Italy International Symposium on Smart Tribology, November 9–10, 2026, Nanjing, China.
14. M. Kalin, Tribochemistry in superlubricity of water-based lubricants, World tribology Congress, WTC - 2026, September 20-25, 2026, rio de Janeiro, Brasil.
13. M. Kalin, Green Tribology: Status and Perspectives, International Symposium on Advanced Materials, ISAM-2025, October 27th–31st, 2025, National Centre for Physics (NCP), Islamabad, Pakistan.

12. M. Kalin, The challenges in real contact area measurements and modelling, Ibertriva-Ibertrib 2025, June 17-18, Coimbra, Portugal.
11. M. Kalin, Understanding the friction laws of Amontons and Coulomb by evaluating the real contact area, 7th Asia International Conference on tribology ASIATRIB 2024 & 9th China International conference on tribology CICT 2024, 14-18 September 2024, Tianjin, China.
10. M. Kalin, Importance of surface properties for real contact area formation, Met & Props 2024, Marrakech, Morocco, May 27-29, 2024.
9. Kalin Mitjan, Contact behaviour of deformable and work-hardening multi-asperity surfaces, in real contact area domain, Friction 2024, Oberhof, Germany, 26-27 February, 2024.
8. POLAJNAR, Marko, ČOGA, Lucija, KALIN, Mitjan. Tribological properties of different base lubricants for stamping : role of their chemical structure and viscosity : keynote lecture. ECOTRIB 2023 : European Conference on Tribology, Bari (Italy), June 21-23, 2023.
7. M. Kalin , Importance of contact temperatures for tribology of polymer contacts, SICT 2023 / PlasmaTech 2023 / Tribology 2023 Joint Conferences, April 2023, Lisbon, Portugal.
6. KALIN, Mitjan. Green Tribology: an appraisal of current status and future needs. SICT 2022, Plasma TECH 2022, Tribology 2022, hybrid joint conferences, 27-29 avril 2022, Barcelona, Spain.
5. M. Kalin, EHL friction control through surface-oil boundary film interactions: International Tribology Research Symposium; Impact of Tribology on Society, 5-7.Nov. 2020, India.
4. KALIN, Mitjan. Role of DLC coatings in tribofilm architecture: ITC Sendai 2019, International Tribology Conference Sendai 2019, 17th-21st September 2019, Sendai, Japan.
3. KALIN, Mitjan. Extreme surface layers: a concept for future tribology: WTC 2017, 6th World Tribology Congress, September 17-22, 2017, Beijing, China.
2. REMŠKAR, Maja, VARLEC, Ana, KOGOVŠEK, Janez, KALIN, Mitjan. Novel morphologies of molybdenum based nanomaterials for traditional application: EMN Istanbul Meeting on Energy, Materials, Nanotechnology; July 1-4, 2015, Istanbul, Turkey
1. KALIN, Mitjan. Importance of surfaces and interfaces for functional tribological properties of materials:3rd Global Conference on Materials Science and Engineering, Oct. 20th-23rd, 2014, Shanghai, China.

INVITED PANEL DISCUSSION TALKS:

7. M. Kalin, ACS Automotive cluster, razvojna konferenca 2024, panel diskusija, Ljubljana, Slovenija, 2024.
6. M. Kalin, Industrijski forum IRT, panelna diskusija, Portorož, Slovenija, 2015.
5. M. Kalin, *Chemical and physical interactions between DLC coatings and lubricants panel: ASME RCT workshop "Surface engineering - coatings, texturing and beyond", International joint tribology conference in Miami, Florida, October 20-22, 2008*. 2008.
4. M. Kalin, *Challenges and opportunities for advanced ceramics and composites in tribological applications: panel discussion, STLE,* Philadelphia, USA, May 6-10, 2007.
3. M. Kalin, M. Kermc, J. Vižintin, *Tribology of ceramics in extreme environment applications : high-temperature ceramic brakes: STLE 2006, Calgary, Canada,* 2006.
2. M. Kalin, J. Vižintin, *The effect of doping elements and oil additives on the tribological performance of boundary-lubricated DLC contacts: STLE 2004, Toronto, Canada, Engine and drive train I*. Toronto, Canada, 2004.
1. M. Kalin, J. Vižintin. *Power train efficiency transmission and axle: STLE 2004, Toronto, Canada,* 2004.

INVITED CONFERENCE PRESENTATIONS:

49. KALIN, Mitjan. Importance of surface properties for real contact area formation : presentation at the Lubrication and Contact Workshop, October 26th to 27th 2024, Qingdao, China
48. M. Kalin: New Contact Temperature Model for Polymer Contacts, Considering Tribo-System Geometry: A Step Toward Generalization, Spotlight talk, STLE Tribology Frontiers Conference, November 12-15, 2023, Cleveland Ohio, USA.

47. M. Kalin, S. Matkovič, A. Pogačnik, Polymer gears tribology for sustainable engineering: tribological perspective on specifics and requirements for polymer gears design, November 8, 2023, EPFL, Lousane, Swiss.
46. M. Kalin, Real contact area and load-carrying capacity of hard multi-asperity surfaces, September 4-6, 2023, Samarkand, Uzbekistan.
45. Mitjan Kalin , Experimental evidence on multi-asperity contact behaviour of engineering surfaces with sub-micron scale analyses, K-TRIB 2023, April 2023, Busan, Korea.
44. KALIN, Mitjan. Green tribology as an indispensable part of sustainable future and associated knowledge challenges. V: WTC2022 : 7th World Tribology Congress, July 10-15 2022, Lyon, France. 2022, str.1.
43. KALIN, Mitjan. Lubrication of diamond-like carbon (DLC) coatings : challenges and opportunities : invited lecture at Final Multicomp Meeting 2020 Slovenj Gradec September 24-25.
42. KALIN, Mitjan. Contact consideration in tribofilm design. V: CREST International Symposium on Optimization of Running-in for Low Friction Nano-interface: Nishitetsu Inn Fukuoka, February 18, 2019. [S l.: CREST. 2019], str. 13-14.
41. KALIN, Mitjan. Submicron investigation of the multi-asperity contacts of real engineering surfaces: experimental and theoretical analyses. V: International Workshop Contact Mechanics and Friction - foundations and applications, Berlin, 14.-17. October 2019. [Berlin: Technische Universität. 2019], str. 17.
40. REMŠKAR, Maja, TOMALA, Agnieszka, KALIN, Mitjan, RODRÍGUEZ RIPOLL, Manel. Nanocevke na osnovi molibdena v kombinaciji s standardnimi aditivi za znižanje trenja. V: SLOTRIB 2018: program posvetovanja, Posvetovanje o tribologiji, mazivih in tehnični diagnostiki, 20. november 2018, Ljubljana. Ljubljana: Slovensko društvo za tribologijo. 2018, datoteka M. Remskar et al_Nanocevke na osnovi molibdena... (2 f.)
39. KALIN, Mitjan. Submicron scale experimental and theoretical investigation of the multi-asperity contacts for real engineering surfaces with various topographic and material properties: invited lecture at the Third International Brazilian Conference on Tribology (TriboBR), Florianópolis, Brazil, December, 3-5 2018.
38. KALIN, Mitjan, KOGOVŠEK, Janez. Tribological behaviour of some WS2, MoS2 and graphene nanoparticles under oil-lubricated conditions. V: NTAI 2016: book of abstracts. [Israel: Holon Institute of Technology - HIT. 2016], f. 19.
37. KALIN, Mitjan. Evropske sheme financiranja MR in sheme v drugih članicah: predavanje na slavnostnem dogodku ob obeležitvi 30. obletnice delovanja programa mladih raziskovalcev - MR30, 20. 10. 2016 v veliki dvorani SAZU.
36. KALIN, Mitjan. The role of wetting and adsorption in lubricated green DLC contacts: [invited talk]. V: YOSHIMOTO, Shigeka (ur.). Tokyo 2015, International Tribology Conference, September 16th - 20th, 2015, Tokyo, Japan. Tokyo: Japanese Society of Tribologists. 2015, datoteka 123.pdf
35. SALOPEK, S., JECH, M., WOPELKA, T., KALIN, Mitjan. Surface analysis and real time wear measurement of boundary lubricated piston ring: cylinder liner contact. V: Integrated tribology. Leeds: School of Mechanical Engineering. 2014, str. [137]
34. KALIN, Mitjan. Specifics in tribological investigation of polymers. V: Polytrib 2014: proceeding, 1st International Conference on Polymer Tribology, 11th - 12th September 2014, Bled, Slovenia. Ljubljana: Slovenian Society for Tribology. 2014, datoteka Session IV/1_KALIN_Specifics in tribological investigation of polymers.pdf (1 f.).
33. REMŠKAR, Maja, KOGOVŠEK, Janez, KALIN, Mitjan. Molybdenum and tungsten-based nanomaterials: nanotubes, nano-onions and monolayers. V: WERNER, Wolfgang S.M. (ur.), BELLISSIMO, Alessandra (ur.). Programme schedule and book of abstracts, 15th Joint Vacuum Conference, JVC15, Vienna, June 15-20, 2014. [S. l.: s. n.]. 2014, str. 193.
32. KALIN, Mitjan. Tribološke lastnosti polimerov. V: VIŽINTIN, Jože (ur.), KRŽAN, Boris (ur.). Zbornik predavanj Posvetovanja o tribologiji, hladilno mazalnih sredstvih in tehnični diagnostiki = Proceedings of the Conference on Tribology, Metal Working Fluids and Technical Diagnostics, Posvetovanje o tribologiji, hladilno mazalnih sredstvih in tehnični diagnostiki, Ljubljana, Slovenija, 11. november 2014.
